Look at what our close business parter Leslie Nielson just gave us! We used to have some serious competition from SDSC, but thanks to Leslie that is no more. We will be able to make some state-of-the-art forged passports that can fool even the Department of Homeland Security. Thanks to all of you using our super secure Diffie-Hellman key exchange for communications, we go undetected today as well.

But unfortunately, our quarterly passport sales have declined 20% due to the Coronavirus and the reluctance of our customers to travel. We have never been this close to bankruptcy before. As an emergency measure, all employees will now be paid in Chez Betty credit instead of ca\$\$\$\$h. PAY YOUR CHEZ BETTY DEBT! Your balance will be taken into account for next quarter's performance reviews.
